

Pre-service  
Teachers

The Illinois New Teacher Collaborative (INTC) provides statewide leadership to create a resource for educators in supporting new teachers through induction and mentoring activities. Recognizing the need for a central source to consolidate efforts that support beginning teachers, INTC was created in 2004 through a partnership network. Information and resources pertaining to attracting, retaining, and enhancing teaching skills of novice teachers are now available to schools and communities through the central source provided by INTC. Any Illinois educator is welcome to join INTC.
