Section 1030.30 Institutional Approval

The following general rules apply to institutions seeking a Certificate of Approval under the 1945 Act and an Authorization to Operate under the 1961 Act. Section 1030.40 identifies exceptions to these rules for those institutions covered by only the 1945 Act. Section 1030.50 identifies exceptions to the general rules for the institutions covered by only the 1961 Act.

- a) **Criteria for Evaluation of the Application for a Certificate of Approval and/or Authorization to Operate**

The following criteria are designed to measure the appropriateness of the stated educational objectives to the name and certificate or degree programs that require approval of a given institution and the extent to which suitable and proper processes have been developed for meeting those objectives:

 - 1) For institutions requiring approval, the objectives for the institution and its certificate and degree programs that require approval must be consistent with what the institutional name and program titles imply.
 - A) The term "university" shall only be used in the name of an institution of higher education when the institutional structure includes two or more distinct colleges (e.g., College of Business, College of Education, and College of Liberal Arts and Sciences) providing instruction at the baccalaureate and graduate levels, and is involved in public service activities, scholarship and research.
 - B) The term "college" shall only be used to refer to an institution providing instruction at the postsecondary level.
 - C) Names of certificate and degree programs that require approval shall adhere to the Classification of Instructional Programs (CIP) developed by the National Center for Educational Statistics.
 - 2) During review for operating authority, Board staff will consider the following:

SUBTITLE A

- B) Loss, suspension, probation or similar adverse action taken by an accrediting body with which the institution is or was affiliated.
 - C) Actions of federal or state regulatory agencies or Offices of Attorneys General, Offices of Inspectors General, or similar bodies that affect an institution's status with those bodies.

- 3) The caliber and content of each course or program of instruction, training or study shall be reasonable and adequate for achieving the stated objectives for which the course or program is offered. An undergraduate curriculum shall include general education in alignment with the degree level and objectives.
- A) Approved program admission policies must include, at a minimum, the following:
 - i) Undergraduate degrees must require a high school diploma or its equivalency, or passage of an ability to benefit test or alternative pathway that has been approved pursuant to U.S. Department of Education regulations (see 34 CFR 668.145). Home school students who have obtained a diploma or similar credential under applicable state law are considered to have met this equivalency requirement. Students who do not meet such a standard may be admitted provisionally but may only take non-credit bearing coursework until the student passes an ability to benefit test.
 - ii) Graduate degrees must require at least a baccalaureate degree from an accrediting authority recognized by the U.S. Department of Education or the Council for Higher Education Accreditation or degree from another country evaluated for U.S. equivalency, with the exception of degrees for professional practice whose professional standards do not require baccalaureate degrees for entry or for dual degree programs that can demonstrate equivalency of student outcomes at both the undergraduate and graduate levels. For purposes of dual degree programs that allow

SUBTITLE A

individuals to complete a bachelor's degree and either a graduate or professional degree within the same program, a student is considered an undergraduate student for at least the first three years of that program.

- B) Institutions must show the capacity to develop, deliver, and support academic programs. Procedures and policies that will assure the effective design, conduct and evaluation of the program under the academic control of the institution must be developed. Assessment plans must demonstrate that the institution has identified clear and appropriate program and student learning goals and must have defined appropriate outcomes. Appropriate data must be collected and may be requested by the Board to show the level of student learning that has occurred as a result of participation in the institution's programs of study.
- C) Provision must be made for guidance and counseling of students, evaluations of student performance, continuous monitoring of progress of students toward their certificate and/or degree objectives, and appropriate academic record keeping.
- D) IBHE staff approval is required for certificates tied to an approved degree program. Board approval is needed for the creation of a certificate program in a field or at a level in which there is not a previously approved degree program.
- E) Programs must meet the following requirements; variations from these standards require justification:
 - i) Associate degree requires at least 60 semester credit hours or 90 quarter credit hours.

 - iii) Master's degree requires at least 30 semester credit hours or 45 quarter credit hours of appropriate post-baccalaureate coursework.

SUBTITLE A

- iv) Doctor's degree – Professional Practice requires completion of a program providing the knowledge and skills for the recognition, credential or license required for professional practice; at least 60 semester hours of postsecondary credit required for admission to the program; and a total of at least six academic years of college work to complete the degree program, including prior required postsecondary work plus the length of the professional program itself.

The program shall demonstrate full understanding of the level and range of doctoral scholarship; the function of a dissertation and its defense based on original research, or the planning and execution of an original project demonstrating substantial artistic or scholarly achievement; the nature of comprehensive examination; and other standards commonly held for these degrees; at least 2 full time years of advanced academic coursework beyond the master's degree; and an independent performance of basic or applied research at the level of the professional scholar, typically a dissertation, or to perform independently the work of a profession that involves the highest levels of knowledge and expertise.
 - vi) Certificate program requirements must be consistent with level and stated program objectives.
- F) Success in student progression and graduation across all existing approved programs, and success rates in programs preparing students for certification and licensure, shall be consistent with expectations in higher education and the appropriate related field of study. At a minimum, the Board shall consider the following factors, based on results for similar institutions:
- i) Graduation rates, certificate and degree completion rates, retention rates, and pass rates for licensure and certification aligned with thresholds set by State or national regulatory bodies.

SUBTITLE A

- ii) Success rate, which shall be, at a minimum, higher than that of the lowest quartile of these measures for similar Illinois institutions defined as open versus competitive enrollment institutions and primarily associate versus primarily baccalaureate granting institutions. Exceptions may be made to the lowest quartile if an institution is above the national average for these measures using the same comparison categories of institutions.
- G) Additional student success measures shall be considered in the review of applications for authorization. The Board shall establish minimum rates of success based on results for similar institutions or thresholds set by State or federal regulatory bodies.
 - i) At a minimum these data shall include student loan default rates, student indebtedness rates, job placement rates, student learning measures and other success indicators.
 - ii) Institutions that participate in Federal Student Loan programs shall have 3-year Official Cohort Default rates no higher than 25 percent.  - vii) Assessments of student learning, especially exams, take place in circumstances that include student identification and assurance of the integrity of student work.
 - viii) Assessment of electronically offered programs by the institution occurs in the context of the regular evaluation of all academic programs.

Institutions shall have policies in place that serve to ensure equivalency of instruction and program delivery across faculty members, including methods of measuring equivalency of student learning outcomes across faculty. The Board shall establish minimum rates of success based on data for similar institutions. The ratios shall be, at a minimum, higher than those of the lowest quartile of these measures for similar Illinois institutions defined as open versus competitive enrollment institutions and primarily associate versus primarily baccalaureate granting institutions. Exceptions may be made to the lowest quartile if an institution is above the national average for these measures using the same comparison categories of institutions.

- B) The information listed in subsection (a)(7)(A) shall be available to prospective students prior to enrollment.
- 8) Upon satisfactory completion of the degree program, the student shall be awarded the appropriate degree by the institution, indicating that a specifically approved course of instruction or study has been satisfactorily completed by the student.
- 9) Adequate records shall be maintained by the institution to show attendance, progress or grades, and consistent standards should be enforced relating to attendance, progress and performance. Institutions must provide adequate security measures to protect student data and records and must comply with all State and federal laws relevant to protection of individual privacy and preservation of records.

- 11) The institution should be financially stable and capable of assuring the revenues needed for meeting stated objectives and fulfilling commitments to students.

New institutions without accreditation from an accrediting authority recognized by the U.S. Department of Education or the Council for Higher Education Accreditation shall provide a clearly defined plan to move from candidate to affiliate status. - b) Procedures for Obtaining a Certificate of Approval and/or Authorization to Operate

Following is a description of the steps in the approval process:

- 1) Orientation
The agenda will include a discussion of criteria to be met by the institution and procedures used in applying for a Certificate of Approval and/or Authorization to Operate.

SUBTITLE A

- 2) **Notice of Intent (NOI)**
The Chief Executive Officer of the institution seeking a Certificate of Approval and/or Authorization to Operate a degree-granting postsecondary institution in the State of Illinois should make this intention known by filing a Notice of Intent with the Board. Notices of Intent shall be publicly posted on the Board's website for no less than 30 days before Board action on the application and are active for one year.
- 3) **Submission of Application and Supporting Documentation**
Following the submission of a Notice of Intent, the institutional representatives shall complete the application supplied by the Board. The application requests information and supporting evidence to demonstrate that the institution meets the criteria established. This information request includes a signed cover letter and audited financial statements.
- 4) **Staff Analysis**
Following the receipt of the formal application and accompanying documentation, staff will review and analyze all materials.
- 5) **Site Visit**
 - A) Following completion of documentation and staff analysis of the application, a site visit may be arranged in order to verify and supplement the information provided about the proposed institution. Site visits may be scheduled if:
 - i) the Board is not familiar with the physical facilities;
 - ii) the institution asks for a site visit;
 - iii) questions have been raised about the veracity of the application; or
 - iv) for other reasons the proposed institution/program does not lend itself to an in-office analysis.
 - B) The site visit may include interviews with prospective administrators, students, faculty and/or board members and observations of facilities, record systems, financial data and/or curricular resources.

SUBTITLE A

- 6) **Outside Consultants**

The Executive Director of the Board, at his or her discretion, may utilize the services of outside consultants to assist the staff in the verification and/or evaluation of the documentation submitted or obtained through the site visit.

 - ii) That the institution be denied a Certificate of Approval and/or Authorization to Operate.
- 8) **Staff Recommendations to the Board**

The Executive Director of the Board will submit the staff recommendation to the Board for action at a regular meeting. The Chief Executive Officer of the applicant institution or a designee will be invited to attend the meeting and may be asked to respond to Board questions. In the event the staff recommendation is negative, the applicant shall be given an opportunity to respond in writing. This response shall be transmitted to the Board at the same time as the staff recommendation.
- 9) **Board Action**

Following the Board's decision to issue a Certificate of Approval and/or Authorization to Operate or to deny a Certificate of Approval and/or Authorization to Operate, a letter signifying the action will be sent from the Executive Director of the Board to the Chief Executive Officer of the institution. A letter of approval will serve as the official Certificate of Approval/Authorization to Operate for the institution in the State of Illinois.

SUBTITLE A

- c) Initial authorization to operate in Illinois for institutions new to the State shall be for five years. In the fifth year of operation, the Executive Director of the Board shall instruct staff to conduct a review. The Board may deny a continuation of the initial approval or offer a limited extension if the institution:
- 1) Has failed to implement and maintain the conditions that were presented in its application and that formed the basis upon which authorizations were granted;
 - 2) Has failed to maintain sound fiscal status;
 - 3) Has failed to achieve accreditation through a U.S. Department of Education and/or Council for Higher Education Accreditation recognized accrediting body for degree granting institutions during the initial five year period. Failure to achieve accreditation shall be grounds for immediate revocation of approval. Until accreditation is achieved, the institution shall clearly and appropriately state in all promotional materials and advertisements and on its webpage that it is not accredited; or
 - 4) Has failed to demonstrate success in student progression and graduation and success rates in programs preparing students for certification and licensure that are consistent with expectations in higher education and the appropriate related field of study. At a minimum, the Board shall consider the following factors, based on results for similar institutions:
 - i) Graduation rates, program completion rates, retention rates, and pass rates for licensure and certification aligned with thresholds set by State or national regulatory bodies.
 - ii) Success rate, which shall be, at a minimum, higher than that of the lowest quartile of these measures for similar Illinois institutions defined as open versus competitive enrollment institutions and primarily associate versus primarily baccalaureate granting institutions. Exceptions may be made to the lowest quartile if an institution is above the national average for these measures using the same comparison institutions.
 - iii) Additional student success measures shall be considered in the review of applications for authorization. The Board shall establish minimum rates of success based on results for similar institutions or thresholds set by State or federal regulatory bodies. At a

SUBTITLE A

minimum, these data shall include student loan default rates, student indebtedness rates, job placement rates, student learning measures and other success indicators.

- iv) Institutions that participate in Federal Student Loan programs shall have 3-year Official Cohort Default rates no higher than 25 percent. Institutions with Federal Financial Responsibility Composite Scores shall have a score that is no lower than 1.0. Institutions that fail to meet these thresholds may be restricted from implementing new certificate and/or degree programs.
- d) Nothing in this Section shall be construed to prevent the Board from withdrawing Certification of Approval or Authorization to Operate at any time, including during the first five years of operation, if an institution has failed to implement and maintain the conditions that were presented in its applications and that form the basis upon which its certificate or authorization was granted.
- e) Publications and Information. Institutions shall be scrupulously ethical in all communication with the public and with prospective students. School publications, advertisements and statements shall be wholly accurate and in no way misleading. Violations of this subsection shall be grounds for immediate investigation of the institution pursuant to Section 1030.70 and, depending on the results of the investigation, may be grounds for revocation proceedings under Sections 1030.70 and 1030.80.
 - 1) An institution may state that it is approved or authorized to operate in the State of Illinois only after approval has been officially granted and received in writing from the Board and while authorization is maintained.
 - A) Institutions authorized by the Board may use the authorization in advertising and promotional material and on letterhead stationery only if using the following language: (name of school) is authorized for operation by the Illinois Board of Higher Education. The entire statement must be used with the same size font and font type of print.
 - B) Institutions authorized by the Board that have presence, advertise or offer instruction via Internet or other electronic telecommunication means must state or have a link on the first page (as registered with standard web/internet search engines) to the following statement that can be readily viewed by the consumer: (name of school) is authorized to operate as a

SUBTITLE A

postsecondary educational institution by the Illinois Board of Higher Education. In the case of a website, within the required statement, the term "Illinois Board of Higher Education" must be a hyperlink to the Board's website at www.ibhe.org.

- 2) No statement shall be made that the institution or its courses of instruction have been accredited unless the accreditation is identified as that of an appropriate U.S. Department of Education and/or Council for Higher Education Accreditation recognized accrediting agency. An institution shall not advertise or state in any manner that it is "accredited" by the Board.
- 3) No institution shall publish or otherwise communicate to prospective students, faculty, staff or the public misleading or erroneous information about the operating or degree-granting status of a given institution.
- 4) Recruitment and informational materials of an institution that has received only approval and/or authorization from the Board to operate shall indicate that the institution is not yet authorized to award degrees.
- 5) No dollar amount shall be quoted in any advertisement as representative or indicative of the earning potential of graduates.
- 6) Institutions or representatives shall not use a photograph or other such illustration in public documents, sales literature or otherwise in such a manner as to convey a false impression as to size, importance or location of the institution or equipment and facilities associated with that institution.
- 7) Institutions or representatives shall not make deceptive statements concerning other institutional activities in attempting to enroll students.
- 8) No statement or representation shall be made that students will be guaranteed employment while enrolled in the institution or that employment will be guaranteed for students after graduation, nor shall any institution or representative misrepresent opportunities for employment upon completion of any course of study.
- 9) The Board, at any time, may require that an institution furnish proof to the Board of any of its advertising claims. If proof acceptable to the Board cannot be furnished, a retraction of the advertising claims, published in the

SUBTITLE A

same manner as the claims themselves, must be published by the institution and continuation of that advertising shall constitute cause for revocation of the institution's Certificate of Approval and Authorization to Operate.

- 10) Student loans offered to students by the institution or those agents it recommends must clearly state whether the loans are federal student aid loans.
- 11) No statement shall be made by an institution or its representatives that the programs and/or courses or exams are transferable to another institution without current documentation by an authorized official of the receiving institution.
- 12) Each Board authorized institution or institution receiving a Board degree authorization must provide in its catalog and print promotional materials and on its website the Board's mailing address and the Board's website link for reporting complaints. For the website information, there must be a hyperlink to the Board's website on the first page (as registered with standard web/internet search engines).
 - A) Institutions authorized by the Board, or an institution receiving a Board degree authorization, must provide in their catalogs and print promotional materials and on the first page of their websites the institution's procedure for complaint resolution. The web page providing information on the institution's complaint procedure must also have a hyperlink to the Board's website link for reporting complaints not resolved at the institution's level.
 - B) Institutions authorized by the Board must respond in writing within 10 business days after receiving a student's complaint from the Board. The Board shall review the response and determine if additional information is needed from the institution.

Institutions under only the 1961 Act shall comply with Section 1030.80. Institutions under both Acts shall comply with both Sections 1030.70 and 1030.80. When the two Sections are identical, the institution will be considered in compliance with the 1945 Act by complying with Section 1030.80 and vice versa.

The hold will be for a specified period of time not to exceed six months, unless the Board begins collection of pertinent information related to satisfying the issues associated with the investigation, such as the results of adverse actions by federal or state regulatory agencies, the results of pending court action for which a sworn affidavit has been filed, actions of accrediting bodies, or similar information. Upon completion of the investigation, the Board will accept the institution's request to voluntarily relinquish its approval, begin the process for revocation as provided in subsection (b)(4), at which time the hold continues,

SUBTITLE A

or remove the hold. Information that any current authorizations or future applications are on hold will be provided by the Board on its web page or in print materials that reference authorized institutions.

Act. The Board shall not be required to schedule a hearing and has the option to waive a hearing if the institution has not operated for one continuous 12-month period or the institution has been abandoned; even in these cases, however, the Board shall be required to revoke the certificate at a public meeting at which any opponent who is injured or impacted by the revocation must be given the opportunity to be heard.

- ii) If the Board decides to grant a rehearing pursuant to Section 10 of the 1945 Act, it shall appoint another Hearing Officer, different from the first, who shall conduct a hearing upon only those grounds for which the rehearing was granted. The second Hearing Officer shall submit a written report of findings and recommendations to the Board, which shall make a final determination.

 - iii) Institutions that are planning a change of legal status shall inform the Board as early as possible. If new approvals will be sought by the institution, a plan should be developed in consultation with the Board to facilitate the transition process.
 - iv) In cases in which a change in shareholders results in new leadership of an institution, the Board shall require that the institution submit documentation demonstrating that no change has occurred in the operation of the institution that would affect the conditions under which the institution and/or its degrees were authorized.
 - v) Merger of two institutions resulting in the creation of a new institution causes both institutions to lose their approvals and results in the need for new authorizations.

(Source: Amended at 42 Ill. Reg. 66, effective December 19, 2017)

Section 1030.80 Maintenance of Authorization to Operate and/or Grant Certificates and Degrees under the 1961 Act

Each authorized institution shall file annually with the Board its current catalogs. In addition, institutions must comply with any data requests to satisfy Board reporting requirements.
 - 2) **Reviews**

The staff of the Board may conduct reviews and/or visitations of authorized institutions and/or their certificate and degree programs as necessary for the implementation of the statute. This may include a review in the fifth year of a new program's existence. Board staff may review the program, in cooperation with institutional staff, to verify the institution's implementation and maintenance of the conditions that were presented in its applications and that formed the basis upon which the authorizations were granted. The fifth year review may also include information on improvements in the institution's capacity to efficiently and effectively deliver certificate and degree programs using technological innovation and comprehensive data systems. Evidence that the program meets standards enumerated in Section 1030.30(a) may be reviewed. In the case of a program in which State licensure is required for employment in the field, a program can be found to be in good standing if the institution is able to provide evidence that program graduates are eligible to take the appropriate licensure examination and pass rates are maintained as specified in the objectives of the unit of instruction. If there is no such evidence, approval of the program may be withdrawn by the Board.
 - 3) **Complaints Concerning Institutional Degree Practices**

The staff of the Board may initiate an investigation in response to written or oral information suggesting that changes have occurred in the conditions under which Authorization to Operate and/or Award Specific Certificates and Degrees was given. The institution shall provide an annual status report to the Board on any program under temporary suspension status. The Board will consider a program placed on temporary suspension status to be terminated if an annual status report is not received or if no reinstatement request is received within the first five years after the program was placed on temporary suspension. An institution may petition for reinstatement during the five-year period.
- 5) Revocation or Relinquishment of Operating and/or Degree-Granting Authority
 - A) Grounds for revocation include:
 - i) Failure to permit any duly authorized representative of the Board to enter upon the premises of the institution and to inspect or otherwise examine the institution and its books, papers or other records.
 - ii) Failure to maintain the conditions under which the institution and/or its certificates and/or its degrees were authorized.
 - iii) Failure to maintain the institution's implementation and maintenance of the conditions that were presented during its fifth year review and that formed the basis upon which the authorizations were continued.

 - v) Abandonment of the institution.
 - vi) Loss of accreditation status with an accrediting body with which the institution is or was affiliated.
