

Goal 1 Comment:

Scholarships for students sponsored by businesses for post secondary education

Goal 1a Comment:

Training reimbursemnt to business that provide training. The current system is a nightmare.

Goal 1b Comment:

Everyone going through the education system is a potenal employee from kindergarten through their completion of the formal educational process. Education should be a lifetime activity.

Goal 1c Comment:**Goal 2 Comment:**

Communicate Education System to Employers and businesses

Goal 3 Comment:

Everyone going through the education system is a potenal employee from kindergarten through their completion of the formal educational process. Education should be a lifetime activity.

Goal 3a Comment:

College Education doesn't have any guarantees. The goal of education should be to be employable.

Goal 3b Comment:

Credentials that match job requirements.

Goal 3c Comment:

Education should provide a strong foundation of basic skills then advance into more technical aspects. With a srtong foundation of basic skills them individuals could change career paths with new or continued education.

Goal 3d Comment:**Goal 4 Comment:**

Everyone going through the education system is a potenal employee from kindergarten through their completion of the formal educational process. Education should be a lifetime activity.

Comment:

The standards for a quality education should be set for employabilty. The effort then should be to have a variety of educational avenues to attain the required standard. Not dummy down the standards. Again everyone going through the education system is a potential employee.
