Each year the Illinois Board of Higher Education (IBHE) conducts a study of expenditures at public universities in Illinois. This document provides the results of the study for the 2015-16 academic year. It provides a comparison of State and tuition support for public institutions with differing mission's and levels of instruction. The history of this quantitative analysis dates back to the 1960's. The cost measures provide essential information for today's policy and budgetary decision-makers.

The *Discipline Unit Cost Study* provides a detailed analysis of costs for instruction, organized research, and public service activities at each public university in Illinois. It identifies the activities that contribute to differences in overall costs among the institutions and helps assure that the allocation of state resources reflects the most important institutional priorities. It is used in the development of the performance funding model of IBHE's recommended budget as well as for the reporting of the average tuition subsidy report that is required each year.

The *Comparative Cost Study* compares each public university's instructional costs per credit hour for each academic discipline and level of instruction to the weighted average for all public universities. This analysis then accounts for differences in the mix of academic programs among institutions.

- The total costs for all functions reported in the 2015-16 academic year was \$2.328 billion, or \$174 million (7%) less than the prior year of \$2.502 billion. (Data for each institution is provided in Section III, p. 28.)
- In order to attain "instructional cost" directly attributable to student instruction, the organized research function and the public service function are factored out from the total costs. Thus, the instructional cost in the 2015-16 academic year was \$1.994 billion, or approximately \$138 million (6.5%) less than the prior year of \$2.132 billion. (Data for each institution is provided in Section V, p. 140.)
- The total instructional cost per credit hour for all academic disciplines, excluding organized research and public service functions, was \$400.72, or 6%, lower than the prior year OF \$427.08. The total credit hours were 4.98 million, or 15,882 (0.3%) lower than the 4.99 million reported in the prior year. (Data for each institution is provided in Section IV & V, pgs. 36 & 140.)

The procedures and the data utilized in the *Discipline Unit Cost Study* and the *Comparative Cost Study* have been developed with the cooperation of the dedicated staff of the public universities. The collection of instructional data is critical in the development and production of this Study and their efforts are certainly appreciated.

Sincerely,

Al Bowman, Ph.D.

INTRODUCTION

This document contains both the *2015-16 Discipline Unit Cost Study* and the *2015-16 Comparative Cost Study*. Both reports provide an analysis of costs for instruction, organized research, and public service at each public university in Illinois.

The document is divided into ten sections along with summary tables that outline some key data points mentioned in the report. Sections I through VII present the details of the *Discipline Unit Cost Study*. The various tables summarize the total student credit hours, by level of instruction, for each public university; the proportionate distribution of costs for instruction, organized research, and public service among the various cost assignment categories, and the total costs for instruction, organized research, and public service for each of the cost assignment categories. In addition, the report presents costs per credit hour for instruction for each of the cost assignment categories and summary tables showing the total credit hours, costs for instruction, and instructional costs per credit hour for each public university by academic discipline and level of instruction.

Institutions submit costs and credit hours associated with the first four digits of the Classification of Instructional Programs (CIP) codes. These codes are published in the report *A Classification of Instructional Programs*, Washington, D.C., National Center for Education Statistics. Since the number of unique four-digit codes would produce too voluminous a report and jeopardize the validity of the comparative cost analysis, costs and credit hours have been aggregated to 46 separate discipline groups. See Section VIII for a discussion of the aggregation procedure.

Section VII identifies the differences between the costs included in this study and the total state appropriated operating expenditures.

Sections VIII through X present the *2015-16 Comparative Cost Study*. Specifically, Section VIII describes the procedures used in the study while the remaining sections present summary tables for the comparative analysis both with and without a fixed cost adjustment.

DISCIPLINE UNIT COST STUDY TECHNICAL PROCEDURES

The *Discipline Unit Cost Study* provides an analysis of each university's costs for instruction, organized research, and public service. The data reported in the study are based on the Faculty Activity Analysis. The Faculty Activity Analysis distributes costs for faculty salaries over the primary functions of instruction, organized research, and public service based on the proportion of each employee's time assigned to these activities. Faculty salaries assigned to instruction are then allocated to the categories of direct instruction, indirect instruction, and departmental research based on the proportion of time assigned to these activities in the Faculty Activity Analysis. Faculty salaries are allocated to direct instruction based on the proportion of credit hours taught in that discipline and the level of student enrollment in each course.

Support costs are then allocated to the primary functions of instruction, organized research, and public service and to each academic discipline and level of instruction. Total costs for overheads unique to the function of instruction, student services, and independent operations are allocated to each academic discipline and level of instruction based on the credit hours for that discipline and level of instruction. The costs for all other support activities are distributed based on the proportion of the cumulative costs at the previous step unless these costs can be directly related to a specific functional activity or level of instruction. Support costs are allocated to the primary functions of instruction, organized research, and public service in the following order:

- Departmental Overhead
- College Overhead
- Overhead Unique to a Function
- Academic Support
- Student Services
- Independent Operations
- Institutional Support
- Operation and Maintenance of the Physical Plant

Costs are allocated to the primary functions of instruction, organized research, and public service and to the various cost assignment categories for each academic discipline and level of instruction.

In order to provide these data, each institution completes the attached table (Form A) for each discipline. Costs per credit hour are calculated by dividing the costs associated with each discipline and level of instruction by the respective credit hours.

DEFINITIONS

A. Primary Functions

1. **Instruction** - the primary function of instruction consists of those activities, which should either, lead to credit toward a degree or provide requisite preparatory/remedial instruction. Instruction includes the following sub functions:
 - General Academic Instruction
 - Vocational/Technical Instruction
 - Requisite Preparatory/Remedial Instruction
 - Recruitment, Admissions, Registration and Records
 - Support for Instruction

2. **Organized Research** - the primary function of organized research consists of research activities, which are administered and budgeted separately from instructional departments. Organized research includes the following sub functions:
 - Institutes and Research Centers
 - Individual or Project Research
 - Laboratory Schools
 - Support for Organized Research

3. **Public Service** - the primary function of public service includes programs established to make available to the public the resources of the institution for the specific purpose of responding to a community need or solving a community problem. This includes non-degree instructional programs that are classified as community education and various consulting activities, which have been officially assigned to university employees by a department head, vice-president, or president. Public service includes the following sub functions:
 - Direct Patient Care
 - Community Services
 - Cooperative Extension Services
 - Public Broadcasting Services
 - Community Education
 - Support for Public Service

B. Cost Assignment Categories

1. **Direct Salaries** - this category reflects the faculty assignments to the primary functions of instruction, organized research, and public service. Direct salaries for instruction include faculty assignments related to the direct instruction of students. This includes teaching students in courses, supervision of student teaching and applied studies, thesis supervision, independent study, tutorials, and preparation of class presentations. Direct salaries for organized research and public service reflect the assignment of faculty to these activities in the Faculty Activity Analysis.

2. **Indirect Instruction** - this category includes those assigned activities, which encompass all duties related to instruction of students other than direct instruction. It includes supervision of teaching other than student teaching, academic advising, coordinating instruction of different sections of the same course, and duties related to instruction for which direct instruction is the responsibility of another person.

Examples of activities included in this category are:

- Preparation of instructional materials and course outlines,
- Procurement and preparation of class and laboratory apparatus and supplies,
- Paper grading for another person's course,
- Time spent to direct a department-sponsored drama or music group, and
- Academic advisement under a centralized unit.

Examples of activities excluded from this category are:

- Coaching of intercollegiate athletics (assigned to student services), and
- Remedial teaching for which no credit is given and which is conducted outside the department (assigned to student services).

3. **Departmental Research** - this activity category includes research duties specifically assigned to a faculty member by the head of an academic department. Department heads often may choose to assign a portion of a faculty member's effort to do scholarly research in lieu of teaching. Such assigned effort, which need not be approved by a university research committee, may contribute to the professional development of a faculty member and may lead to a publication of results and findings. With the exception of a release-time instructional contribution required by the terms of an externally funded research grant, all research effort assigned at the departmental level should be included as Departmental Research. *
4. **Department Overheads** - this activity category includes those administrative activities, which are carried out in support of the efficient operation of the department. It includes the portion of faculty members' departmental activity, which cannot be directly assigned to direct instruction, indirect instruction, departmental research, organized research, or public service. The reported figures indicate the amount of department overhead that has been allocated to the instructional function. Department overhead may also be allocated to organized research and public service.
5. **College or School Overheads** - this category includes the cost of academic administration identified with a school or college and is prorated to appropriate departments by departmental costs. Due to various organizational structures among the public universities, the costs in this category are not comparable.
6. **Total Department and College Costs** - this category includes the total costs associated with direct instruction, indirect instruction, departmental research, departmental overheads, and college or school overheads.

* Departmental effort assigned as cost sharing to an externally funded research project is organized research. Other organized research activities are limited to separately organized research institutes or centrally administered support programs.

7. **Overhead Support Unique to a Function** - this category includes support costs attributable to a single function and prorated among disciplines according to their expenditures for each function. For instance, a discipline with no organized research activities would not be assigned any organized research overhead.
8. **All Other Academic Support** - this category includes the usual academic support areas (excluding academic administration):
 - Libraries
 - Hospitals and Patient Services
 - Museums and Galleries
 - Academic Support Not Elsewhere Classified
9. **Student Services** - this category includes the following areas:
 - Social and Cultural Development
 - Counseling and Career Services
 - Student Health/Medical Services
 - Intercollegiate Athletics
 - Financial Assistance
 - Financial Aid Administration
 - Student Service Administration
10. **Independent Operations** - this category includes the following areas:
 - Student Auxiliary Services
 - Housing Services
 - Food Services
 - Retail Services and Concessions
 - Student Unions and Centers
 - Specialized Services
 - Other Independent Operations
11. **Institutional Support** - this category includes the following areas:
 - System Office Support
 - Executive Management
 - Financial Management and Operations
 - General Administration and Logistical Services
 - Faculty and Staff Auxiliary Services
 - Public Relations/Development
12. **Total with University Overheads** - this category includes the costs of all the previous categories (1 to 11).

13. **Operation and Maintenance of Physical Plant** - this category includes the following areas:
 - Superintendence
 - Custodial Services
 - Building Maintenance
 - Grounds Maintenance
 - Utilities
 - Repair and Maintenance
 - Security
 - Fire Protection
 - Transportation
 - Rental of Space
 - Other O & M Activities
14. **Total All Costs** - this category includes the sum of all the previous assignment categories (1 to 13).

C. Levels of Instruction

1. **Student Level, Lower Division** (undergraduate) - A student who has completed fewer than 60 semester hours (90 quarter hours) or the equivalent.
2. **Student Level, Upper Division** (undergraduate) - A student who has completed at least 60 semester hours (90 quarter hours) or an unclassified (irregular or special) student who has not been admitted to the graduate division or to a professional college or school giving a post baccalaureate degree.
3. **Student Level, Graduate I** - A student holding a bona fide bachelor's degree who has been admitted to the graduate division or to a professional school either as a candidate for a master's degree, an advanced degree or certificate, or as an unclassified graduate student.
4. **Student Level, Graduate II** - A student holding a bona fide master's degree, or advanced degree or certificate beyond the master's degree, who has been admitted to a doctoral program. Also, a student holding a bona fide bachelor's degree who has been admitted to a doctoral program and has attained at least 30 semester credit hours toward the doctoral degree. Graduate II students can exist only in institutions which offer a doctoral degree program.

Note: More complete definitions for the functions and assignment categories are given in the RAMP Manual. It should be noted that the first three functions are called primary functions and that most assignment categories are identical to the support functions used in RAMP.

SECTION VIII
COMPARATIVE COST STUDY PROCEDURES

COMPARATIVE COST STUDY PROCEDURES

The purpose of the *Comparative Cost Study* is to compare the instructional costs at each public university to a weighted average based on all public universities in Illinois. This analysis is based on the *Discipline Unit Cost Study*.

The *2015-16 Comparative Cost Study* is presented in the last two sections of this report. Section IX reports the differences between the instructional costs reported by each university and a weighted average instructional cost based on all universities. The weighted average instructional cost is determined by multiplying that institution's credit hours for each academic discipline and level of instruction by the average instructional costs per credit hour for all public universities for that academic discipline and level of instruction. Thus, the weighted average instructional cost for each institution is determined by the unique mix of academic programs at that institution. A negative number indicates that the institution's instructional costs are less than the weighted average for all public universities. A positive number indicates that the institution's instructional costs exceed the weighted average.

Section X reproduces Section IX with each institution's instructional costs adjusted to exclude fixed costs associated with the operation of an academic library, student services, and other basic administrative activities. Based on an examination of these activities, it has been estimated that approximately \$700,000 is required for the fixed costs associated with the operation of academic libraries, \$550,000 for student services, and \$1,500,000 for institutional support. These amounts are subtracted from the appropriate categories for each institution and the comparative cost analysis performed on the adjusted costs.

Institutions report credit hours and costs at the first four digits of the new Classification of Instructional Programs six-digit code (see Introduction for reference). At that level too many unique cells jeopardize the validity of the *Comparative Cost Study* procedures. Consequently, the individual four-digit codes were aggregated to form 46 separate discipline groupings. The *Comparative Cost Study* was performed on these 46 groupings. The following table presents the *Comparative Cost Study* aggregation scheme.
