Institution: Covenant School of Health Sciences

Campus Type: Main

Address: 903 N 129th Infantry Dr, Suite 500, Joliet, IL 60435

Contact Name: Nancy Hufana

Phone: 773-627-6828

Website: www.covenantschoolofhealth.com

LIST OF PROGRAMS

- Covenant School of Health Sciences will provide the Practical Nursing Training Program as a pre-licensure program to prepare its graduates in successfully passing the NCLEX-PN.

The training program will consist of 1000 contact hours of web-assisted didactic learning, laboratory exercises and clinical rotations in long-term care facilities. It primarily prepares individuals to assist in providing general nursing care under the direction of a registered nurse, physician or dentist.

- CSHS will provide the Basic Nursing Assistant Training Program (BNATP) as a pre-certification program to prepare its graduates in challenging the state-certification examination. The training program will consist of 80 contact hours of web-assisted didactic learning, laboratory exercises and 40 hours of direct patient care in a long-term care facility.
- CSHS will provide the EKG Technician training program as a pre-certification program to prepare its graduates in challenging an industry certification examination. The training program will consist of 50 contact hours of web-assisted didactic learning, laboratory exercises and actual patient care in a medical office.
- CSHS will provide the Phlebotomy Technician training program as a pre-certification program to prepare its graduates in challenging an industry certification examination. The training program will consist of 80 contact hours of web-assisted didactic learning, laboratory exercises and actual patient care in a medical office or medical lab setting.
- PROPOSED PROGRAM OF STUDY

The Medical Assistant Training Program (MATP) includes both administrative and clinical functionalities of the occupation. The graduate will be able to get certification as both an administrative and clinical medical assistant.

The program will be designed to follow the definition of the Classification of Instructional Program (CIP) Code 51.0801. Medical/Clinical Assistant. (2010).

- Practical Penetration Testing Track
- This bootcamp is an immersive and hands-on training delivered remotely through live instruction, recorded lectures, lab tutorials, and virtual labs. Students will gain the knowledge to deliver a full penetration assessment at the network and application layer, from scoping, threat modeling, and discovery to vulnerability scanning. Students will work through the dozens of custom lab environments, inspired by real world situations encountered by Evolve Security penetration testers. Students will also receive Offensive Security's PWK course with 90 days of lab access and a voucher for the OSCP certification.

Proposed Program of Study: OSCP Bootcamp

- Business Computer Applications
- MEDICAL ASSISTING PROGRAM & MEDICAL ASSISTING PROGRAM BLENDED
Objectives:
Graduates of the Medical Assistant program will have the skills necessary to aid the physician and other medical personnel as they examine and treat patients. Medical Assistants perform office administrative tasks that keep a medical office or clinic running smoothly. Upon successful completion, students will be prepared to work in physicians' offices, clinics, nursing homes, and health care centers as a medical secretary, medical assistant, medical receptionist or medical office manager.
The CIP Code for the program is 51.0801

- CIP 51.1614 (proposed new program) Hybrid Nurse Assistant- The hybrid healthcare training basic nurse assistant training course is a program that consists of both online and in-class instruction. This allows the student the scheduling flexibility. The hybrid program is a total of 172 hours that includes theory (38 face to face hrs. including skills) (89 hrs. online theory) and clinical (45 hrs. in person) experience to obtain a basic nursing assistant certificate using skills acquired listed in training objectives. Course objective: To teach and train individuals to help care for patients and to provide support to members of the nursing team. BNAs provide care to patients and provide support to members of the nursing team under the supervision of a registered nurse and licensed practical nurse. Program cost: tuition- \$1,831.50, books-\$65.00, lab fees- \$163.00, Supplies -\$180.00, Total- \$2,280.30. *plus \$30.00 drug test & \$75.00 exam fee not included. Four (4) terms per year. Upon completion individuals receive a certificate of completion and are eligible to take the State Exam to become certified. After successfully passing the State Exam individuals can be employed with employer job titles as CNA or Patient Care Technician in clinics, hospitals, nursing homes, doctor's offices.

- Basic Nursing Assistant
Projected start date January 3, 2022
CIP code 51.3902
7 weeks/144 clock hours
The Basic Nursing Assistant (BNA) program prepares a person to take the certification exam which is necessary to become a Certified Nursing Assistant (CNA) in the State of Illinois. The program is designed to prepare qualified individuals to be safe, caring, and effective nursing assistants who work under the supervision of qualified health care professionals. BNAs are trained to perform at a minimum entry level in positions normally available in hospitals, nursing homes, and home health agencies. This program presents basic nursing assistant principles as well as providing opportunities for practice and demonstration of skills related to patient care. The students' time will be divided between classroom instructions, laboratory time, and supervised experience in the nursing home and/or hospital settings. Upon meeting graduation requirements of the Basic Nursing Assistant program, the student is entitled to a Basic Nursing Assistant certificate.

- Per Scholas proposes to offer learners the Data Engineering course. CIP Code: 11.0501 and SOC Code: 15-1211. The anticipated start date of the course is April 18, 2022. Learners interested in the course must have some Python knowledge when applying.

This 14-week intensive course will provide learners the skills to obtain an entry or mid-level position as a Data Engineer or Program Analyst. The course has been informed by our employer partner, TekSystems, to ensure that the course content is relevant to today's labor market and employer needs. The first 4 weeks of the course will focus on sharpening a fundamental skill set that includes Linux, Versions Control with Github. The instructor will cover basic commands & Linux environment, Sudo, how to use Nano and VI editors, trap and I trap signals, console log, files, file path & directories. Additional there will be an introduction to Github & Version Control, SQL, Postgre SQL, Data Warehousing and Data Mart, Big Data + ETL as well as Data Mart Styles and much more. During weeks 5-7, the focus will be on Python and Database integration with Python. Weeks 8 and 9 will focus on Data Analytics with Python, introduction to statistics and measure variability and data visualization. Weeks 10 - 12 the learners will focus on Spark and Spark SQL and Tableau, including what is data analytics, types of data analysis and chart types. During week, 13 there will be a focus on introduction to DevOps including the DevOps life cycle, workflow, and overview of CI and DC as well as popular DevOps tools. Finally, during week 14 learners will develop a capstone project during the final week of the course that will be presented to the instructor.

Each day consists of 4.5 hours of technical instruction (22.5 hours weekly) and 1.5 hours of Professional Development (7.5 hours weekly). The class is scheduled to meet 9:00 a.m. – 4:00 p.m. There is a 60-minute lunch break, and a 15 minute break in the morning and the afternoon. Additional support is available on an as-needed basis from 4:30 p.m. - 5:30 p.m. Hours of school operation: 9:00 a.m. - 5:00

Students are expected to complete all lab assignments and activities. All exams/quizzes are administered on the assigned date and time. Assignments are due at the start of class on the assigned date and time. If a student misses a class for any reason, they are responsible for making up the work and collecting any notes/assignments missed. Makeup exams and assignments will be accepted at the instructor's discretion and allowed only in extraordinary circumstances.

- Per Scholas purposes to offer the Cybersecurity course. This course will prepare students for jobs in the area of security that include Security Analysts and Computer Network Support Specialist.
- The Software Engineering course is expected to be offered in June of 2023, based on state approval. The course will prepare graduates for junior level or mid-level Web Developer or Web Design roles based on their prior experience or knowledge.

LIST OF PROGRAMS

- COURSE OBJECTIVES:

The Basic Nurse Aide Training Program will prepare students interested in careers in the healthcare field, specifically the nurse aide training program. This course is designed for students who are interested in caring for those in need of assistance such as, elderly persons, those with cognitive issues, multiple co-morbidities etc. Students will perform ADL's such as bathing, ambulating, turning for those in need or assisting those in need with these functions. Student who take this course will complete 120 hours of instruction, 80 hours in Theory/Lab and 40 hours if clinical. Students will receive a certificate of completion upon successful completion of the course. Students who complete the nurse aide training program would be eligible to sit for the state certified nursing assistant exam.

COURSE DESCRIPTION AND PROGRAM INFORMATION:

Renee's School of Careers offers a Nurse Aide Training Program that has been approved by the Illinois Department of Public Health and the Illinois Board of Higher Education. - Surgical Assistant program has been developed to prepare students to assist in operations, under the supervision of surgeons. Surgical Assistant may, in accordance with the applicable state laws, help surgeons to make incisions and close surgical sites, manipulate or remove tissues, implant surgical devices or drains, suction the surgical site, place catheters, clamp or cauterize vessels or tissue, and apply dressings to surgical site. Surgical Assistant program will be using a variety of instructional methods that will prepare students for entry-level positions as surgical assistants or provide career path advancement opportunity for individuals already working in the field. At the end of the program, graduates will be equipped with the necessary knowledge, skills and experience to start working as a Surgical Assistant, which will bring benefits and contribute to the efficiency of the operating room, as well as improvements in the patient outcome.
Surgical Assistant students will be trained through a variety of instructional methods including: virtual and on campus classes, laboratory and clinical experience to safely assist in surgical operations. Comprehensive surgery knowledge as well as perioperative and postoperative skills will be stressed during this program. The role and functions of the surgical assistant, the unique functions of the surgical assistant are emphasized, and are not limited to: tissue handling, suturing, hemostasis, and surgical instruments.
Graduates of the Surgical Assistant (SA) program at Stellar Career College are eligible to take the Surgical Assistant - Certified (SA-C) exam of the American Board of Surgical Assistants (ABSA).

LIST OF PROGRAMS

Provide a sample catalog description of the proposed program or course of study. Include admission criteria, tuition, fees, charges, and any other expenses necessary in order to complete the proposed program or course.
Course No: SPA – 303 CIP Code: 12.0411 SOC Code: 27-1019

Course Title: Lips Workshop

Course Description: This three-day permanent makeup course is perfect for a beginning artist or artists who desire to continue to hone their skills. This intensive, hands-on course focuses on successful techniques for lip mapping and the application of lip color and line for added color and definition.

Upon enrollment, students will receive a course booklet covering theory that includes basic concepts, definitions, and drawings. Students are required to complete all assigned work included in course booklet (i.e. template drawings) and submit to instructor via email no less than two calendar weeks prior to the commencement of the three-day workshop.

On day 1, instructor will review materials included in course booklet. At the end of day 1, students will be required to complete a written assessment of the basic concepts, definitions and drawings included in the course booklet. On day 2, students will advance skills and technique using practice skin to simulate a live experience. Students must demonstrate to the instructor an understanding of techniques before student will be allowed to practice on a live model. At the end of day 2, instructor will demonstrate successful techniques for lip mapping and the application of lip color and line for added color and definition. On day 3, students will advance skills and technique using a live model.

Students may be provided with a live models during the classroom sessions for an additional fee. For a period of one year after the successful completion of the classroom session, each student may schedule time to shadow Instructors, subject to their availability, to continue to observe techniques that have been taught in this course.

Pre-Requisites:

- Proof of successful completion of Blood Borne Pathogens for Body and Tattoo Artists
- Submission of assigned work included in course booklet no less than two calendar weeks prior to the commencement of the workshop to demonstrate understanding of key concepts

Course Completion Requirements:

- Successful Completion (Score of 75% or higher on written assessment) of self-study Coursebook (approximately 50 hours study time): Basic concepts, Definitions, Drawings.
- Attendance at all classroom learning sessions
- Successful Demonstration to Instructor of all skills in Live Model Training(s)

Course Duration: Length of Class: 3 Days, M,T,W, 8am-5pm

Tuition: \$3,900.00

Live Model Fee, if applicable: \$100.00 each, with a minimum of two required

Total number of PBVS: 374 | Number of main campuses: 277 | Number of extension sites: 97

- Course No: SPA – 203 CIP Code: 12.0411 SOC Code: 27-1019
