Title: Campus Sexual Misconduct Climate Survey

Date: 10/18/2023

Thank you for submitting your request for approval of this project. The IRB has administratively reviewed your application and has determined on 10/18/2023 that your project does not meet the definitions of Human Subjects Research according to Federal regulations. Therefore, IRB oversight is not required or necessary for your project.

DETERMINATION JUSTIFICATION:

This project, as submitted, does not qualify for the DHHS criteria for human subject research because this is not a systematic investigation designed to develop or contribute to generalizable knowledge. Findings are expected to provide information about UIUC students' perceptions and experiences related to sexual misconduct related to UIUC and to direct future improvements to UIUC programs or projects, rather than contribute to generalizable knowledge, and so does not meet the definition of research requiring IRB review and approval.

This project does not meet the FDA definition of Human Subjects Research because it does not involve a drug, device, or any other article regulated by the FDA.

This determination of non-human subjects research only applies to the project as submitted to the IRB. Since this determination is not an approval, it does not expire or need renewal. Remember that all research involving human subjects must be approved or exempted by the IRB before the research is conducted.

If you have any questions please refer to our website at <https://oprs.research.illinois.edu> or contact our office at irb@illinois.edu and we will be happy to assist you. Thank you again for submitting your proposal.
